BEECH CREEK BRANCH LINE

Comment Form for Public Scoping Meeting February 10, 2009

Thank you for joining us tonight to learn about environmental studies for the proposed reactivation of the Beech Creek Branch Line. An important component of the environmental clearance process is to gather and consider comments from the interested public. Please complete the information below and deposit this form in one of the collection boxes marked "Comment Forms".

1. In which municipality and county is your residence located?

Cooper Township Clearfield County

2. How did you learn about the meeting tonight?

Mail.

3. Please tell us your comments about the information presented here tonight. (How well was the information presented; was it informative and understandable; were the consultants helpful in answering your questions; etc.)

Information was presented as well as could be. Information or lack thereof was found on the Boards. No watershed information placed on Boards for Cooper Township Manager. And the concerns. Public has the right to know that your rails will run directly thru affected area. Rail Line runs thru too many neighborhoods to carry this type of cargo.

4. What additional comments about the proposed rail reactivation would you like to add?

Public forum should be held in Cooper Township for the residents that will be most affected by the Rail reactivation and Landfill Morris should also have a public forum with your representatives there.
